DragonFly™ Digital Display Media Player

Ultra Small Mini ITX Form Factor
8 inches x 8 1/2 inches x 3 inches

Solid State Drive

The DragonFly™ Digital Display Media Player is built in an Ultra Small Form Factor Chassis complete with Optional 'fins' for easy VESA mounting on the rear of Large Digital Displays.

Featuring an Intel DN2800MT motherboard with an integrated Atom processor, the DragonFly is a complete Media Player or Set-Top box that can easily handle playback of your digital video with optimized High Definition video and audio playback using Intel® HD Audio Technology 4 channel.   Includes integrated Dual Display capability!

Incudes advanced mSATA Solid State 30 Gig Drive and greater, from OCZ that gives quick boot and steady playback with 0.1 ms seek time. DDR 3 memory with options for up to 4 Gig of performance.

Integrated LAN 10/100/1000 gives fast connections for uploading, downloading and management of data.
Wireless Network connection is available as an additional option.

 Microsoft Embedded Windows 7 Standard allows a secure OS with smaller overhead.

Assured Computing Technologies is an Intel GOLD Partner and Microsoft OEM System Partner.

We create technology products that will give you the best value on your investment.

Individual and Quantity Pricing available upon request.

Intel® Desktop Board DN2800MT is integrated with the new Intel® Atom™ processor D2800 and the Intel® NM10 Express Chipset to offer a thin mini-ITX desktop computer system. The board features a 10/100/1000 integrated Intel® LAN, 1080 high-definition playback with HDMI, and Intel® High Definition Audio (Intel® HD Audio). With the new low-power silicon, the Intel Desktop Board DN2800MT can be used in chassis that require no fan for heat dissipation. This board is designed for ultra small form factor (~1 liter) and All-In-One chassis.

While this desktop board is small in size, it delivers a rich multimedia and Internet experience with the support of 1080 high-definition video playback.
